EXPERIENCE

L'Etoile ([letu.ru](#)), St Petersburg City, Russia — Senior Android Developer / Android Tech Lead (Agile Release Train)

JUNE 2021 - PRESENT

letu.ru - The largest player in the Russian online retail market.

- Led development of high-traffic Android app used by millions of users, managing and mentoring a team of 5 Android engineers while remaining hands-on
- Drove Jetpack Compose adoption, reducing UI development time and improving consistency
- Migrated legacy Java code to Kotlin and modernizing the stack
- Contributed to Server-Driven UI and performance tuning
- Rest API design and integration
- Established metrics collection and performance analysis
- Defined architectural enabler stories adopted across multiple teams
- Led technical refinements and defined implementation constraints
- Implementation of Kaspersky framework for automated testing
- Improved SLA and NFR compliance through continuous monitoring

Sberbank, St Petersburg City, Russia — Senior Software Engineer (Android)

AUGUST 2019 - JUNE 2021

Sberbank - The largest technological bank in Russia.

- Led Android development for SberPravo, a B2C legal services marketplace targeting
- Designed scalable application architecture for long-term development
- Delivered the first production release with positive stakeholder feedback
- Owned technical decisions and contributed to product impact beyond development

Sberbank, St Petersburg City, Russia — Software Development Engineer in Test

NOVEMBER 2017 - AUGUST 2019

- Built and maintained Java-based test automation using Selenium WebDriver, Cucumber, and Allure
- Designed internal tools and frameworks that increased team productivity and reduced manual effort
- Improved CI/CD pipeline usability, reliability, and overall stability, reducing flaky builds and failures

ABOUT

Senior Android Engineer (8+ years) building and scaling large mobile products. Expertise in Kotlin, Jetpack Compose, performance optimization, and modernizing legacy codebases. Technical lead for a team of 5 engineers, combining architectural ownership with hands-on development.

SKILLS

Android: Kotlin, Java, Android SDK, Jetpack (Compose, ViewModel, Room), Coroutines/Flow, RxJava, CameraX, ExoPlayer ·

Architecture: MVVM, Clean Architecture, modularization, DI (Hilt/Dagger/Koin) ·

Cross-Platform: Kotlin Multiplatform · **API & Data:**

REST, SQL · **Platform &**

Services: Firebase (FCM, Crashlytics, Remote Config), GMS / HMS · **Quality:** JUnit, MockK, Espresso · **Build &**

Delivery: Gradle (Kotlin DSL), CI/CD · **Expertise:** performance & memory optimization, code reviews, mentoring

EDUCATION

Bachelor's in Business Informatics — Lobachevsky State University of Nizhni Novgorod (UNN) - 2015
